

## Three easy ways to give feedback.

1

### Course feedback in WinhaWille

Did you learn enough during the course? Was the course organized well or badly? Is there something you wanted to say about the course? You can log online and give course feedback in WinhaWille. Lahti UAS takes all course feedback into consideration; both good and bad feedback will be forwarded directly to the teacher's supervisor. Please find the feedback link easily on the WinhaWille front page.

2

### Direct feedback to teacher

3

### Feedback through LAMKO Studen Union

You can give feedback to Student Union LAMKO anonymously through LAMKO's webpage [www.lamko.fi](http://www.lamko.fi) by filling the feedback form. You can also give feedback directly to the LAMKO's board members or secretaries. You can meet them at LAMKO tours, offices and events or just in the hallways at your faculty.

LAMKO directs feedback to the board member in charge of that particular matter. The board member goes through the feedback and takes action if needed. LAMKO has student representatives also in various Lahti UAS teams, which are great places for taking the feedback further. In addition, LAMKO can also contact the teachers and other staff directly and demand actions on any issues. In any extreme matters LAMKO can write a public statement. Read more at LAMKO's webpage [www.lamko.fi](http://www.lamko.fi) - trusteeship.
